

## Our Philosophies

MDS is a distinct small dental laboratory focusing on high standards of quality dentistry, personal service and partnering with you. Using the latest technologies and delivering the most advanced esthetic, functional, precise and predictable restorations to you and your patients.

We know communication is essential part of the relationship between dentist, technician and patient. By allowing us to be a part of your team, we will continue to reach our mutual goal of achieving excellence in dentistry and extremely satisfied patients.

As dental professionals, we all agree that a healthy and attractive smile can improve self-confidence, self-esteem and the overall health of your patients.

MDS understands the value and the importance of your time and knows that a solid team effort means minimal adjustments and more accuracy. This allows for less chair time providing more flexibility in your day.

## Professional Portfolio of Mark Siegel C.D.T., T.E.

I graduated from the School of Technical Careers at Southern Illinois University at Carbondale. My degrees include an Associates of Applied Science in Dental Technology and a Bachelor of Science in Advanced Technical Studies. I am a Certified Dental Technician (CDT) and Certified Dental Technologist (TE). I Have been a technician for 30 plus years, specializing in Fixed Restorative Laboratory work. Studied with the following world- renowned technicians: Pinhas Adar MDT Oral Design, Oliver Tric MDT Oral Design, Asami Tanaka CDT, Claude Sieber MDT, Walter Gebhardt MDT, Bill Marais CDT. Additionally, I have attended courses with leading Dentists, including Pete Dawson, Frank Spears, Robert Winter, and Ed McLaren, to name a few. I continue my pursuit of excellence by educating myself throughout the year by attending hands-on courses and seminars with highly respected technologist and Dentists. This enables me to be on the cutting edge of Dentistry.

I opened MDS/Modern Dental Service Laboratory in 1992 with the goal of providing the highest standards in Dentistry. We set our lab apart from others by knowing that it is possible to have a successful business while offering the highest standards of predictable dentistry in a non-production-type setting. By concerning our efforts on the details that matter to our current and perspective clients and not on the high volume of units to be produced, we can focus on the key elements; esthetics, fit, function, and quality.

My technical knowledge, esthetic eye, and skilled hands establish the highest standards among my peers and set me apart from others in the industry.

To Whom This May Concern:

I recently retired from my adult restorative dental practice. As I reflect on the many individuals who contributed to the success of my practice, Mark Siegel stands out as consistently providing my patients with restorations of the highest level of aesthetics and function.

Mark remained technically current through his on-going continuing education and used his keen sense of care, skill, and judgment to provide me with excellent work. I knew I could always rely on him to collaborate with me on complex restorative plans. Mark was always a true professional, and I am grateful to have had him on my team of experts for over 35 years.

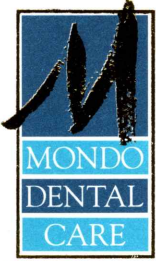

I am confident in giving Mark the highest of recommendations and I invite others to contact me to discuss Mark and MDS.

Respectfully,

Gus E. Tiboris, D.D.S.

To whom it may concern,

This is a letter to introduce Mark Siegel. I have worked with Mark for over twenty years. I highly recommend him for his honesty, his integrity and his work speaks for itself. He is on top of the latest technologies and is always taking CE courses. He understands occlusion/centric relation and his esthetics is spot on. Mark and I have worked on a multitude of different implant cases utilizing different systems and the results have been excellent. Before I start any large case I always sit down with Mark to case plan. He always has good insight and it is extremely helpful.

Mark is a family man. He has a wonderful wife and two children. His son has graduated college and is in the working world. His daughter is currently attending college. Mark's dad is a dentist in Wisconsin. He has grown up around the dental profession all his life.

Give Mark a try, I think you will appreciate his attention to detail and his professionalism.

Dennis M. Mondo DDS

To Whom It May Concern:

This letter is to highly recommend Mark Siegel as a masterful dental lab technician. I've had the pleasure and privilege to have partnered with Mark on simple and complicated restorative cases for over 30 years of practicing esthetic and restorative dentistry. His integrity and attention to detail are at a level of excellence not commonly seen. Having Mark on my team has contributed to the success of my career and allowed me to provide patients with outstanding dentistry that has stood the test of time.

Sincerely,

Robert H. Feider, D.D.S.
